Make movement part of the skills identity

The Skills & Jobs wordmark pairs lower-case lettering with a group of three rising arrows.

Keep the name legible in a narrower space

The stacked treatment puts the ampersand and jobs on a second line while the arrow group stays beside the lettering.

ORIGINAL STACKED LOCKUP

Let the arrows stand on their own

The three arrows share a direction and change scale and colour. This gives the visual signature a compact independent form.

ORIGINAL THREE-ARROW IDENTIFIER

Connect the unconnected.

Onindo Ahmed

A multidisciplinary thinker and maker passionate about connecting ideas, challenging conventions, and building what's next.

Let's get connected!
